- Senior Veterinary Technician, Animal Allergy and Dermatology (2004-2009)
- Anesthesia/Intensive Care Unit technician, Fifth Avenue Veterinary Specialists (2009-2010)

Mobile surgery, in which a board-certified surgeon performs surgeries within your veterinary hospital on patients that are in need of specialized surgical care provides a wonderful opportunity for both the referring veterinarian and the client.

Veterinarians...

- **Certified surgeon and technician for every case.** We come to you and provide the most advanced equipment and implants available.
- **Offering specialized care within your facility raises your quality of care.** We provide a detailed surgery report, detailed instructions on post-surgical care, and are always available for consultation with your doctors.
- **We're there for your clients.** We encourage owners to call with any questions.
- **Free telephone consultation and radiograph review service.**
- **Personal consultations available.**

Pet Owners...

- **Your pet requires surgery and you probably have questions...** and we are happy to answer them. Just call us at 646-326-5339.
- **Visit our website...** where you can meet us through video, learn more about the surgical procedures we perform, download forms and postoperative instructions, and find answers to frequently asked questions.
